

1. K-LOVE is a christian radio station that I listen to daily. It is inspirational and I believe the music and the message are very important to our community.

2.If K-Love were not on the air I believe that people who are depressed or suicidal would not get the help and prayers they need or the support or uplifting that K-Love could bring them.

3. K-Love is advertising free, it is clean, wholesome music for our children to listen to, and it helps promote good moral standards which have deteriorated in the society and would deteriorate even more if there was not a station like K-Love to remind people how

important it is to be Godly, honest, loving, supportive, and kind.

Please don't discontinue K-Love's signal. Sincerely, Elaine Hill
